

Weng Wai Chen (Sean)

Software Developer

✉ chenwengwai27@gmail.com 📞 016-2533691 📍 Banting, Selangor

About Myself

I am Sean, graduated from Tunku Abdul Rahman University College (TARUC) with Bachelor of Business in Logistics and Supply Chain.

I am a self-taught Web Developer, make a transition from business industry to data industry. With a strong work ethic, excellent interpersonal skills, and a passion for continuous learning, I have been able to self-study and work on personal projects to sharpen my programming abilities. I have over 1 year and 6 months of experience in the IT industry as a Software Developer, mainly focusing on PHP and the Laravel framework. During this time, I have contributed to various web development projects, including developing and enhancing application layouts using HTML, CSS, JavaScripts, Bootstrap, and Flutter.

Project Experiences

Dynamic Client Websites with Admin CMS (Laravel)

- Developed a fully functional dynamic website using Laravel for a client, tailored to meet specific business requirements.
- Designed and implemented a secure CMS (Content Management System) accessible only through admin login for content updates.
- Implemented user authentication, form submission features, and smooth UI animations for an enhanced user experience.

"CARA" app (Flutter)

- Contributed to the development of the CARA mobile application using Flutter, an official initiative from Singapore supporting care and inclusion.
- Implemented user-friendly UI components, audio function, integrated APIs, and ensured smooth performance across Android and iOS platforms.
- Collaborated with cross-functional teams to meet accessibility standards and deliver a polished, production-ready app.

eCommerce portfolio

- Built a standard eCommerce website using HTML, CSS, and JavaScript with fully responsive design and interactive UI.
- Utilized JSON and public APIs to dynamically load and display product data.
- Implemented key features like product listing, order summary and a shopping cart experience.
